THAT SENTIMENT IS REFLECTED IN THIS YEAR'S ANNUAL REPORT AS WE HIGHLIGHT NOT WHAT EACH AREA HAS ACCOMPLISHED, BUT WHAT EACH ACCOMPLISHMENT MEANS FOR OUR STATE'S RESIDENTS AND BUSINESSES."

— STEPHEN LARSON, ADMINISTRATOR

MESSAGE FROM ADMINISTRATOR STEPHEN LARSON

We at the Alcoholic Beverages Division (ABD), like many other state alcoholic beverage control agencies, are defining our new normal by taking the lessons learned from the past two years and using them to strengthen our business model and workforce. Approaching our 35th anniversary as ABD, we continue to innovate, improve our business processes, and enhance the customer experience for our stakeholders. However, we are cognizant that the businesses we license, regulate, and distribute to, many of which are small businesses located in local communities across lowa, have been impacted by inflation and rising labor, shipping, and other costs. These dynamics will present challenges for their business models. ABD will continue to do what we can to recognize the challenges they are facing in today's economy. Delays and not finding solutions can create consequences for the viability of those businesses. Therefore, we have to ease regulatory burdens and bureaucratic red tape in obtaining licenses and permits and continue to enhance our distribution services.

In the year ahead, we begin a new chapter as a division within the lowa Department of Revenue (IDR), led by Director Mary Mosiman. It's been nearly 40 years since the State of lowa has conducted a comprehensive, enterprise-wide assessment of government operations and structure. Since then, the needs and expectations of lowans have changed. As Governor Reynolds said, "State government can't realize its full potential while it's set up to conduct business as it did 40 years ago. We can do better for lowans." Therefore, during this year's legislative session with the governor's leadership, a redesign of lowa's state government was passed and signed into law. Among the changes within the government alignment bill is the addition of Lottery and Alcoholic Beverages as new divisions within the lowa Department of Revenue.

Consumers, licensees, and organizations that rely on ABD can expect uninterrupted service during this transition. The alignment gives us an opportunity to harness energies and explore efficiencies, particularly in areas where our work may already overlap with IDR. Ultimately, as a unified agency we want to continue building on our successes and provide the very best service we can to those we serve.

This annual report reflects a return on investment to the citizens of lowa in Fiscal Year 2023. The amount of sales and revenue generated to the State General Fund was an all-time record of \$152.6 million, an increase of \$2.5 million over the previous fiscal year. The sales growth generated a net profit of \$117.1 million, which will be used to support essential state programs and services. Another successful year was completed in the public-private partnership with Ruan Transportation Corporation, which continued to optimize the delivery of liquor and provide increased efficiency and delivery consistency for our 2,032 retail customers.

This report covers operational results from July 1, 2022 through June 30, 2023. It discloses all income from funds generated by beer and wine taxes, the issuance of licenses, and civil penalties. Also contained within this report is data on the number of licenses issued, administrative actions taken to correct non-compliance, and information on our regulatory compliance efforts.

The business unit of Financial Management, led by Chief Financial Officer Leisa Bertram, prepared this report. The responsibility for both the accuracy of the financial data along with the completeness and fairness of the presentation, including all disclosures, rests with the management of ABD. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial positions, results of operations and programs, and cash flows of ABD.

Sincerely,

Stephen Larson, Administrator

IOWA ALCOHOLIC BEVERAGES COMMISSION

The Iowa Alcoholic Beverages Commission is created under Iowa Code section 123.5 and is comprised of five members appointed by the Governor and subject to confirmation by the Iowa Senate. The commission acts as a public policy-making body and serves in an advisory capacity to the Administrator of the Iowa Alcoholic Beverages Division.

GARY NYSTROM Chairperson

Gary Nystrom began his first term on the Iowa Alcoholic Beverages Commission on May 1, 2014. He was reappointed to a second term

by Governor Kim Reynolds that began May 1, 2019. Commissioner Nystrom was a partner in Pritchard Bros. Inc. Plumbing and Heating in Boone for over 45 years before retiring in December 2017. He also served on the Boone City Council for eight years. Commissioner Nystrom continues to be active in the community through volunteering, as well as serving on other committees and boards locally and statewide. He is a lifelong resident of Boone where he is joined by his wife, two grown children, and five grandchildren. Commissioner Nystrom's current term will expire on April 30, 2024.

RACHEL EUBANK Vice Chairperson

Rachel Eubank began her first term on the Iowa Alcoholic Beverages Commission on May 1, 2015. She was reappointed to a

second term by Governor Kim Reynolds that began June 1, 2020. Currently the President/Owner of Sticks, Inc., she has served as a volunteer with many organizations, including Chrysalis, the I Have a Dream Foundation, the Des Moines Art Center, Puppy Jake, PTA, and Central Presbyterian Church. She is a graduate of the University of Iowa. She is a native of Des Moines and currently resides there with her husband and three children. Commissioner Eubank's current term will expire on April 30, 2025.

JOHN PAULI SECRETARY

John Pauli began his first term on the Iowa Alcoholic Beverages Commission on May 1, 2016. He was reappointed to a second term

by Governor Kim Reynolds that began May 1, 2021. Commissioner Pauli is an engineer with Pella Windows Corporation in Carroll. He

is a graduate of the University of Wisconsin, Platteville (Industrial Engineering) and Drake University (MBA). He is a past member and Chairman of the Carroll County Conservation Board and has served in a number of volunteer positions in the community, including serving as the coach for the local trap shooting team. Commissioner Pauli's current term will expire on April 30, 2026.

SARA WINKLEMAN COMMISSIONER

Sara Winkleman was appointed by Governor Kim Reynolds to the Iowa Alcoholic Beverages Commission and began her first term on May

1, 2022. Commissioner Winkleman is the founder and owner of S & B Farms Distillery in Bancroft. She was named 2019 Woman Entrepreneur of the Year by America's Small Business Development Center - lowa. She is also involved with veteran causes and her own nonprofit, Beyond the Still. BUREAU PERFORMANCE SUMMARY

Each of the Regulatory Compliance Bureau Units worked together to fulfill our mission of effective and efficient education and regulation of alcohol and tobacco laws in lowa. The Bureau staff implemented a multi-faceted regulatory program that focused on results. This year the Bureau achieved increases in nearly all areas of performance results when compared to previous years. Our increased presence statewide was most notably demonstrated through the 211% increase in inspections conducted in FY23 compared to the previous year.

Education continued to be our primary emphasis in bringing licensees into compliance. Our proactive approach to the education and outreach of state and local officials yielded increased partnerships in governance. We worked together with local entities to address ongoing issues pertaining to alcohol-licensed establishments in their communities.

The Regulatory Compliance Bureau is comprised of four units:

- Alcohol Compliance
 - Inspections
 - Investigations
 - Audits
- · Education and Outreach of Law Enforcement and Local Officials
 - Educational Presentations
 - · External Stakeholder Training
 - Strategic Planning
- · Tobacco Compliance
 - I-PLEDGE Enforcement and Training
 - Smokefree Air Act
 - U.S. Food and Drug Administration
- · Administrative Support

REGULATORY COMPLIANCE BUREAU

ALCOHOL COMPLIANCE UNIT

The Alcohol Compliance Unit is responsible for the enforcement of lowa's alcohol laws in a fair and consistent manner.

These unit goals were established:

- To prevent the sale and delivery of alcoholic beverages to underage individuals.
- To prevent the sale and delivery of alcoholic beverages to intoxicated individuals.
- To prevent the sale of alcoholic beverages that are illegally imported or purchased from an illegal source.
- To prevent undisclosed ownership of licensed establishments by unauthorized individuals or entities.
- To provide manufacturers, wholesalers, and retailers of the alcoholic beverage industry with a fair and level playing field.
- To ensure proper payment of tax on alcoholic beverages.

Pursuant to the Iowa Alcoholic Beverage Control Act (Iowa Code chapter 123), the Alcoholic Beverages Division (ABD) is responsible for the administration and enforcement of alcoholic beverage laws in the state of Iowa.

Furthermore, the law provides the legal authority for ABD to inspect and control the manufacture of beer, wine, and alcoholic liquor and regulate the entire alcoholic beverage industry in the state.

ABD serves as a supplementary aid to the lowa Department of Public Safety in enforcement of alcoholic beverage laws.

THE ALCOHOL COMPLIANCE PROGRAM CONSISTS OF THE FOLLOWING THREE AREAS:

Inspections
Investigations
Audits

ALCOHOL COMPLIANCE COMPLAINTS RECEIVED

In FY23, the Bureau received 261 complaints through ABD's online public complaint form, emails, and phone calls.

TOP 5 COMPLAINT CATEGORIES

- 1. Criminal activity on a licensed premises
- 2. Bootlegging
- 3. Sale or service of alcohol to an underage person
- 4. Sale or service of alcohol to an intoxicated person
- 5. Good moral character

Criminal activity on a licensed premises was identified as the number one complaint submitted to the Regulatory Compliance Bureau during FY23. This is a generalized complaint category that captures a variety of potential violations. During the year, one trend that stood out within that category was a rising number of complaints relating to illegal tetrahydrocannabinol (THC) products being sold at alcohol-licensed retailers.

Complaints are addressed with an initial evaluation of jurisdictional authority, then either referred to an external agency or investigated by ABD. Investigations of complaints frequently involve collaboration with local law enforcement agencies.

ALCOHOL COMPLIANCE INSPECTIONS

Inspection strategies were developed based on complaint trends and feedback from local law enforcement agencies. Major special events at which alcohol service was a prominent feature was also a core focus area.

Our routine compliance inspection program is geared toward maintaining a presence in all 99 lowa counties every two years. Routine compliance inspections are the best opportunity for ABD to provide in-person education to licensees and assist with any potential compliance issues. Staff Investigators and Compliance Officers meet with local law enforcement agencies prior to conducting routine inspections in their jurisdictions.

INSPECTION INITIATIVES

- RAGBRAL
- Iowa State Fair
- Bootlegging
- · Compliance checks with law enforcement

INSPECTIONS OUTCOMES

The Alcohol Compliance Unit completed 507 inspections during FY23, which is a 211% from the previous year. Program

outcomes reflect our priority to educate first rather than penalize our licensees. During compliance inspections, staff answered questions from licensees and were often able to bring them into compliance in real time.

TOP 5 VIOLATIONS IDENTIFIED BY INSPECTION

- 1. Infusing
- 2. Illegal gambling
- 3. Failure to display license
- 4. SmokeFree Air Act
- 5. Bootlegging

Infused alcoholic beverages was the most commonly identified violation during FY23 inspections. Bootlegging stood out as not only one of the top complaints we received, but also one of the top violations identified during inspections.

INSPECTIONS CONDUCTED

In FY23, the Bureau conducted compliance inspections in 62 of lowa's 99 counties detailed in the map below.

ALCOHOL COMPLIANCE INVESTIGATIONS

Our investigative focus was centered on responding to complaints that fell under the purview of our regulatory jurisdiction. We continued to prioritize complaints that suggested a threat to the public health, safety, and welfare of lowans.

TOP 5 INVESTIGATION CATEGORIES

- Sale or service of alcohol to an underage person
- Criminal activity on a licensed premises
- Good moral character
- Bootlegging
- Sale or service of alcohol to an intoxicated person

ABD-IDR PARTNERSHIP

Through an information-sharing agreement with the lowa Department of Revenue, we assisted in identifying IDR sales tax liability assessments in FY23 totaling \$441,508 (data provided by the IDR Compliance Bureau).

JOINT INVESTIGATIONS

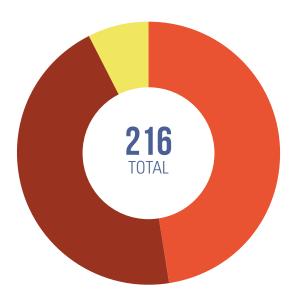

There were 49 joint investigations completed in FY23. ABD has become a resource having significantly strengthened partnerships with multiple different law enforcement agencies and other state departments, as well as with federal agencies, such as the Alcohol and Tobacco Tax and Trade Bureau (TTB).

INVESTIGATIONS OUTCOMES

The Alcohol Compliance Unit completed 216 investigations during FY23. Of the 216 investigations conducted, 103 were closed with no violations identified upon completion. Additionally, 97 were submitted to the ABD Administrative Actions Unit for further review of potential violations and 16 were referred to another agency.

AUDIT COMPLIANCE FINDINGS

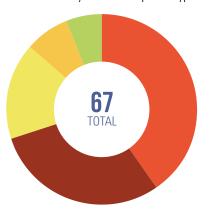

Audits conducted during FY23 identified the following:

- Failure to file barrel and wine gallonage tax monthly reports
- Failure to maintain records
- Incorrect reporting of gallons produced and sold

The compliance rate for audits conducted was 94%. All audits conducted incorporated education on laws, rules, and the reporting of gallons.

AUDITS CONDUCTED

In FY23, 67 total audits were conducted. The total audits conducted are detailed by license and permit types in the chart below.

AUDIT PROGRAM ACCOMPLISHMENTS

The Audit Program is a three-level system:

- Level 1 Three month's records review
- Level 2 One year's records review
- Level 3 More than one year's records review

The purpose of the three-level system is to conduct audits more efficiently by focusing efforts on the more complex Level 2 and Level 3 audits. The Level 1 audits allow ABD to reach more licensees and permittees in the state.

In FY23, Audit Program accomplishments also included:

- Increased voluntary compliance
- Enhanced external education
- Improved processes

REGULATORY COMPLIANCE BUREAU

EDUCATION AND OUTREACH OF LAW ENFORCEMENT & LOCAL OFFICIALS UNIT

The Education and Outreach of Law Enforcement and Local Officials Unit is responsible for ensuring law enforcement and local officials are updated on the laws and regulations of lowa's alcoholic beverage industry.

These unit goals were established:

- To educate and engage local government leadership and law enforcement in addressing issues related to the Bureau's mission.
- To build collaborative relationships.
- To assess the needs of local law enforcement and determine how to provide efficient and effective assistance.

EDUCATIONAL PRESENTATIONS AND TRAINING

Comprehensive, detailed presentations covered regulatory rules and laws, and best practices, on a range of topics specific to local authorities. Presentations were updated as laws changed to ensure the most current information was provided.

In FY23, educational presentations were provided to five lowa law enforcement academies. The Regulatory Compliance Bureau fields questions and complaints from law enforcement officials weekly as a direct result of the educational footprint that the Education and Outreach team has across the state. The team continues to add new presentations and trainings with a goal of reaching every law enforcement agency in the state.

DRUG ABUSE RESISTANCE EDUCATION D.A.R.E. IOWA

In FY23, the Regulatory Compliance Bureau continued to partner with D.A.R.E. Iowa. The Bureau provided direct assistance with certifying 15 law enforcement officers as new D.A.R.E. Instructors at the Midwest Counterdrug Training Center at Camp Dodge in Johnston, Iowa.

D.A.R.E. is one of the leading prevention programs taught around the world. The core D.A.R.E. elementary curriculum consists of 10 lessons that teach students to make responsible choices when confronted with alcohol and tobacco.

More than 15,000 lowa students receive the D.A.R.E. curriculum each year from their local certified D.A.R.E. Instructor.

I-PLEDGE ENFORCEMENT AND TRAINING PROGRAMS

ENFORCEMENT PROGRAM

ABD is required by the Health and Human Services Appropriations bill to collaborate with the Iowa Department of Health and Human Services for tobacco enforcement. Each fiscal year a memorandum of understanding is executed between the two departments to fund tobacco enforcement. ABD contracts with approximately 200 local law enforcement agencies across the state and the Iowa State Patrol to perform underage buy compliance checks at each tobacco retailer in the state.

■ Non-compliant Compliance Checks ■ Unable to Complete Compliance Checks

RETAILER TRAINING PROGRAM

While enforcement of lowa's tobacco, alternative nicotine, and vapor product laws is an important goal of I-PLEDGE, educating retailers and increasing awareness of changes in lowa's tobacco, alternative nicotine, and vapor product laws is the primary focus of the program. This program allows employees and prospective employees to go through tobacco compliance training and receive a certificate upon successful completion. The program is offered online at no cost and the certification lasts for two years. However, if an individual is cited for a sale-to-minor, the certification is revoked. The training may be taken again for recertification.

U.S. FOOD AND DRUG ADMINISTRATION (FDA) COMPLIANCE PROGRAM

FDA conducts inspections of tobacco product retailers to determine a retailer's compliance with federal laws and regulations, including the Federal Food, Drug, and Cosmetic Act, as amended by the Tobacco Control Act, and FDA's rules and regulations. ABD has a contract with FDA to conduct FDA-sponsored retail tobacco compliance inspections.

BUREAU PERFORMANCE SUMMARY

The purpose of the Administrative Affairs Bureau is to assist those engaged in the alcoholic beverage marketplace to achieve compliance with all laws and regulations related to a variety of business types. Our purpose includes proactive measures through analysis of existing laws and education to the alcoholic beverage retail, wholesale, and manufacturing industries and stakeholders. This Bureau also provides legal background and analysis when ABD governance is challenged.

Compliance and communication by the Bureau is accomplished through education and outreach initiatives focusing on the native manufacturing industry in this state, as well as special events occurring at the local level. ABD offers a variety of programs, information, and publications available to alcoholic beverage licensees and permittees, local authorities, law enforcement agencies, media, the general public, and other stakeholders.

Governance by the Bureau is accomplished through the administrative actions process which holds licensees, permittees, and certificate holders accountable when they are found in violation of lowa's alcohol and tobacco laws.

SENATE FILE 2374 UPDATES

Senate File 2374 (SF2374) is a bill related to alcoholic beverage control and licensing and transformed lowa's current alcohol retail licensing structure from 14 license types down to eight. This bill was signed into law in FY23, and was fully implemented by January 1, 2023. License privileges that were previously granted were incorporated into new or existing classifications of retail alcohol licenses, thus repealing some license types and updating total fees. Additionally, SF2374 modified the fees for a majority of the licenses, permits, and certificates issued by ABD. This bill also eliminated the sale of gasoline as criteria for determining the class "E" Retail Alcohol License fee and repealed the additional fee that some retailers previously paid for the privilege to sell on Sundays. References to SF2374 are found throughout this report.

ALCOHOL LICENSING UNIT

The Alcohol Licensing Unit is responsible for licensing the three tiers of the alcoholic beverage industry doing business in the state of lowa.

The unit established the following goals:

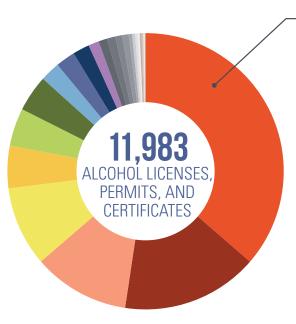

- Effectively and efficiently license all eligible alcohol establishments in partnership with local authorities.
- Provide outstanding customer service to those applicants engaged in the alcoholic beverages industry through the licensing process.

The Alcohol Licensing Unit in coordination with the Education and Outreach Unit and the Native Manufacturing Unit issued 14,741 alcohol licenses, permits, and certificates in FY23. As of June 30, 2023 there were 11,983 active alcohol licenses, permits, and certificates.

Outstanding license fees related to the Governor's COVID-19 pandemic proclamations, which allowed for deferral of certain on-premises licenses and permit fees, in the amount of \$160,592 remain to be collected by ABD. There was a total of \$17,332,588 in license fees collected during FY23.

The lowa Department of Revenue and ABD are working to create a "one stop shop" for licensing and taxation through IDR's GovConnectIowa system. The total number of licenses, permits, and certificates issued encompasses all licensed entities that do business involving alcoholic beverages in the state of lowa.

EDUCATION AND OUTREACH UNIT

The Education and Outreach Unit uses the ABD website, a variety of social media platforms, presentations, and informative documents to implement the education and communication objectives of ABD.

The purpose of this unit is to provide assistance to native manufacturers and special event organizers to ensure efficient and effective licensing and education to these two important groups of licensees and permittees. In addition, educational programs and information are provided to alcoholic beverage licensees and permittees, local authorities, law enforcement agencies, and other stakeholders regarding the laws and rules which govern the alcoholic beverage industry.

IOWA PROGRAM FOR ALCOHOL COMPLIANCE TRAINING (I-PACT)

One of the most widely used programs is the lowa Program for Alcohol Compliance Training (I-PACT). I-PACT is a free online training program designed to prevent illegal sales of alcohol by educating alcohol sellers and increasing awareness of changes in lowa's liquor laws. The goal of I-PACT is increased voluntary compliance with lowa's alcohol laws through

education and enforcement. After successfully passing the final test, participants receive a printable certificate of completion. The certification is valid for a period of two years. However, if an individual is cited for a sale-to-minor, the certification is revoked. The training may be taken again for recertification.

In FY23, 21,211 people were trained in the responsible selling and serving of alcoholic beverages through the I-PACT program. Of those trained, 20,316 were certified, 895 failed the certification resulting in a 95% passage rate. In FY23, 3 people were decertified due to selling alcohol to a minor.

NATIVE MANUFACTURING UNIT

ABD developed a Native Manufacturing Unit to address additional education, licensing, and regulatory questions and concerns applicable to this group of stakeholders. Iowa native breweries, wineries, and distilleries are an extremely important part of the Iowa business landscape and ABD wants to do what we can to ensure their success and compliance with complicated state and federal regulation, as well as disjointed beer and wine taxation.

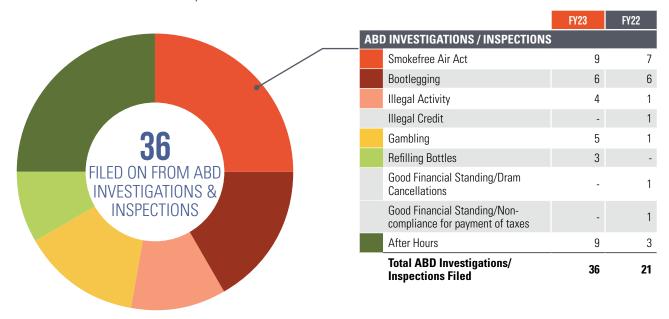

ADMINISTRATIVE AFFAIRS BUREAU

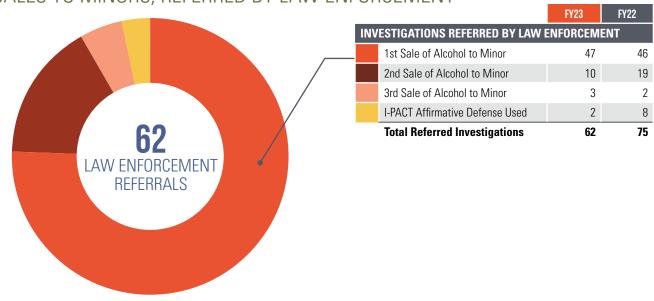

ADMINISTRATIVE ACTIONS UNIT

The Administrative Actions Unit is responsible for ABD's prosecution of administrative violations of lowa's alcohol and tobacco laws. Administrative Actions has transitioned from adversarial hearing complaints to cooperative settlement agreements and education based corrective actions while working to ensure safe communities and a fair and level business environment across the state.

THE BEVERAGE ALCOHOL INDUSTRY CONTINUES TO EVOLVE AND BRING FRESH CHALLENGES TO THE ABD OPERATION. IN PARTNERSHIP WITH OUR DISTRIBUTION PARTNER, RUAN TRANSPORT, OTHER STATE AGENCIES, AND OUR CONTROL STATE COLLEAGUES, ABD WILL CONTINUE TO GROW AND INNOVATE IN THIS ENVIRONMENT. ABD IS A TRUSTED PUBLIC RESOURCE AND WILL CONTINUE TO STRIVE FOR EFFICIENT, CONSISTENT, AND RELIABLE SERVICE FOR ALL OF OUR CUSTOMERS AND STAKEHOLDERS."

—LEISA BERTRAM, BUREAU CHIEF OF OPERATIONS AND FINANCIAL MANAGEMENT

BUREAU PERFORMANCE SUMMARY

The goal of the Business Operations Bureau is to optimize the delivery of distilled spirits, and provide increased efficiency and consistency for our class "E" retail customers. As the class "E" retail community continues to expand, it will be imperative for ABD to bring efficiency and adaptability to our business model.

At the end of FY23, there were 2,032 active class "E" retail licensees operating in lowa. This is a 5.4% increase over FY22. There has been a steady increase in this number over the years, and we see that trend continuing. With the increase in retail outlets, several other key metrics increased including total deliveries, up 7.8%, total cases, up 2.0%, and total bottles sold, up 0.7%.

Additionally, ABD's product portfolio expanded to a total of 2,835 products. This growth resulted in the largest product portfolio offered by ABD in its history, surpassing FY22 by 2.6%. Updates to the ABD racking system and overall storage solutions provided additional opportunities for new products to enter the lowa marketplace.

The Business Operations Bureau continues to look for ways to improve the distribution of spirits by updating metrics and data analytics, collaborating with Ruan Transport, and integrating industry best practices. This bureau strives to provide lowa businesses with customer service, diverse selection, and operational expertise they can rely on.

The Business Operations Bureau is responsible for all day-to-day functions, which incorporate:

- Financial Management and Accounting
- Data Analytics and Division-Wide Metrics
- · Product Management
- · Inventory Management
- · Capital Improvements
- · Asset Safety and Security
- Contract Management and Oversight

\$478,259,852

TOTAL REVENUE EARNED

The Split Case fee is applied when alcoholic liquor is sold to a retailer as a single bottle. The split case fee is \$0.75 per bottle. This fee is applied to offset the cost of splitting, picking, and shipping single bottles.

\$2,259,613

\$5,193,773 BOTTLE DEPOSIT / SURCHARGE

Pursuant to Iowa Code section 455C.2 and Iowa Code section 123.24, ABD charges a bottle deposit and surcharge included in the wholesale purchase price. The charge assessed by ABD is \$0.09 per unit sold and includes the \$0.05 bottle deposit.

\$7,643,565

WINE TAX

All wine sold at wholesale in the state, as well as wine directly shipped to consumers within lowa, is assessed a tax at the rate of \$1.75 per gallon.

\$17,332,588 LICENSE FEES

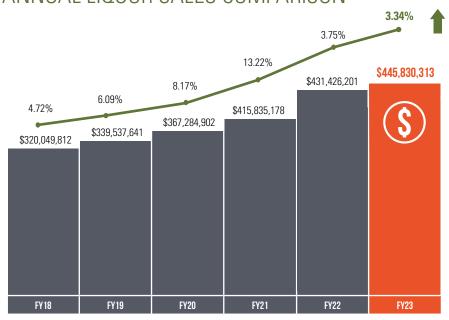

Fees collected are for the licenses, permits, and certificates required for the manufacture, importation, and sale of liquor, beer, and wine in and to the state of lowa. During FY23, Senate File 2374 was passed that made changes to the license classifications and fee structures. This update led to a decrease in the license revenues collected.

\$445,830,313

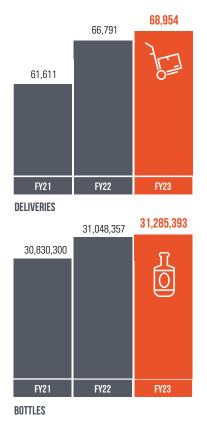

LIOUOR SALES

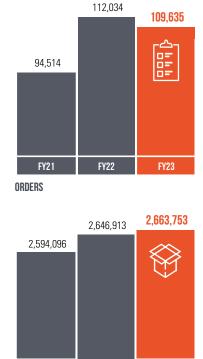

ABD is the sole wholesaler of alcoholic liquor sold in lowa and delivers product to over 2,032 off-premise retail locations across the state. Iowa Code123.24 requires ABD to mark up the price of products sold at wholesale by up to 50%.

CLASS "E" LICENSE AND SKU GROWTH

ABD continues to experience growth in many aspects of the business model including class "E" licenses and SKUs. The increase in class "E" licenses increases the number of distribution points available to be delivered to throughout the state. The number of SKUs refers to the diverse catalog of products offered for distribution. The following graph depicts the history of spirit sales as well as the distribution and SKU increases over the last six fiscal years.

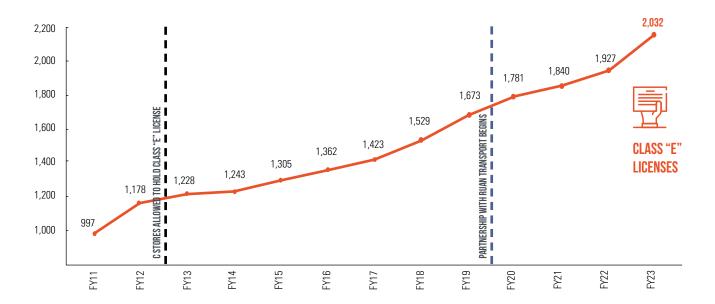

ANNUAL GROWTH OF SPIRIT SALES, DISTRIBUTION OUTLETS, & SKUs

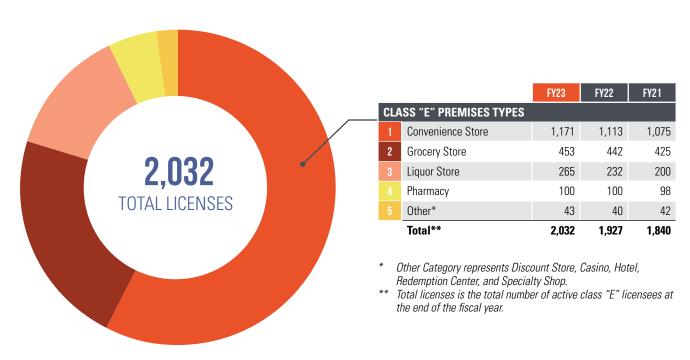

CLASS "E" LICENSE GROWTH

In 2012 there was an increase in the number of class "E" licenses due to a legislative change that allowed convenience stores to be licensed to sell liquor. Since that time, the number of class "E" licenses continues to grow and increases the number of distribution points across the state of lowa. As we pursue our mission, ABD is committed to serving class "E" licensed businesses through the responsible and efficient distribution of alcohol.

BUSINESS OPERATIONS BUREAU

CLASS "E" LICENSES AND SALES BY COUNTY

The heat map below shows the total number of class "E" licenses per county. The color of the county corresponds to the total amount of liquor gallons sold from ABD to the class "E" licenses within that county. The darker the color, the greater the amount of liquor gallons sold. Class "E" licenses sell directly to the public via retail sales or to on-premises liquor licenses. To sell to the on-premises licenses, the class "E" must hold a federal wholesale permit.

FINANCIAL MANAGEMENT

— LEISA BERTRAM, BUREAU CHIEF OF OPERATIONS AND FINANCIAL MANAGEMENT

BUREAU PERFORMANCE SUMMARY

The goal of the Financial Management area is to provide accountable and accurate financial reporting through responsible and transparent budget and asset management practices. The ABD accounting team interacts with all areas of the business as well as with external customers, suppliers, local authorities, and other stakeholders. Monthly financial reporting and key performance indicators are created and managed in this area. These reports and metrics are used throughout the fiscal year to monitor and track all expenses and revenues and provide informed results to a variety of audiences.

As the ABD operation continues to grow and evolve, revenue and volume totals are impacted by a variety of factors. There is a current leveling of the liquor sales revenue increase year over year. FY23 experienced growth in some areas and metrics, but also experienced decreases in revenues collected and in various areas of the distilled spirit operation as are referenced throughout this report.

SENATE FILE 2374 REVENUE UPDATES

SF2374 is a bill relating to alcoholic beverage control and licensing. The bill made technical changes to lowa's alcohol laws and policy. SF2374 modified the fees for a majority of the licenses, permits, and certificates issued by ABD. These modifications were made through a direct change to the fee amount or by an update to the criteria that determines the fee. The sale of gasoline as a criteria for determining the class "E" licensing fee was removed and the additional fee that some retailers paid to sell distilled spirits on Sunday was repealed. The privileges granted by previous retail beer and wine permits were incorporated into new or existing retail alcohol licenses. As a result, some existing retail beer permits, wine permits and some specialized liquor control license types were eliminated. Additionally, the bill created new economic opportunities for native breweries, wineries, and distilleries by allowing them to obtain a class "C" Retail Alcohol License for the purpose of selling liquor, wine, and beer for consumption at the manufacturing location. The bill removed the 100,000-proof gallon production cap at native distilleries. Eliminating this cap allows all native distilleries to sell up to 9-liters of native distilled spirits from their manufacturing location to customers. Finally, SF2374 granted the option of automatic renewal for class "E" Retail Alcohol Licenses, Certificates of Compliance, and Wine Direct Shipper Permits. This update is available, provided the holder has remained in compliance with all applicable laws, rules, and regulations during the previous year and is approved for automatic renewal by their local authority.

The Financial Management area is responsible for all day-to-day functions, which incorporate:

- Accounting
- · Inventory Management

FINANCIAL STATEMENTS INTRODUCTION

The following summary of ABD's financial performance provides an overview of the financial and operational activities for FY23. This data is extracted from the state of lowa accounting system and the ABD operating system and is in compliance with annual report requirements from lowa Code chapter 123.16. Except as noted, all financial information reflects transactions for the reported fiscal period of July 1, 2022 through June 30, 2023. The state of lowa hold-open period was July 1, 2023 through September 15, 2023.

OVERVIEW OF FINANCIAL STATEMENTS

The Profit and Loss Statement reflects ABD's performance with respect to the wholesale operations of revenues and expenses directly related to the Liquor Control Trust Fund. The Net Income Statement encompasses the Liquor Control Trust Fund as well as the General Fund within ABD. Both the Profit and Loss and the Net Income Statement provide a year-over-year analysis, comparing FY23 to FY22. The statements represent the financial operation and performance of ABD relating to lowa Code chapter 123, including administrative revenues and expenses, distribution, and personnel.

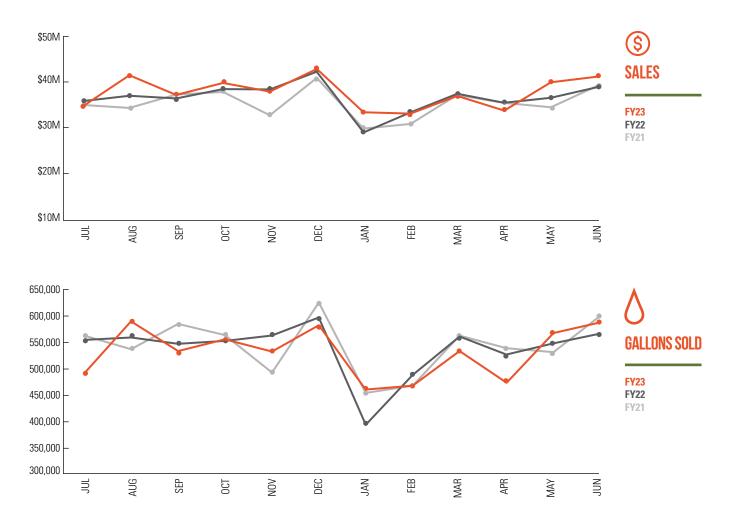

The Statement of Cash Flow represents the deposit and disposition of cash for FY23 compared with FY22 within the Liquor Control Trust Fund for the operating period of the fiscal year July 1 through June 30. The Balance Sheet reflects resources and obligations in the fiscal year hold-open period, July 1 through September 15. Also presented are Notes to Financial Statements which are intended to provide more information for a better understanding of results provided in this report.

Throughout the report are various references to SF2374. Introductory information can be found in the Administrative Affairs section, page 14, as well as a detailed description on page 38. ABD was prepared for these revenue changes and provided several fiscal notes to assist with forecasting the overall impact in licensing revenue. As SF2374 was implemented mid-fiscal year, overall revenue decreases will continue to be visible into FY24.

LIQUOR CONTROL TRUST FUND SUMMARY

Expenses

[■] Deposits

FY23 Expenses

FY23 Deposits

^{*} Beer tax collected is deposited into the State General Fund. This revenue is processed by ABD, but is not included in the total revenue numbers for ABD on other financial reports as this is not deposited in an ABD fund.

^{**} Total expenses exclude General Fund, Substance Abuse, and IEDA reversion amounts. It also excludes the net impact of remaining authority carry forward from the previous fiscal years.

REVERSION ANALYSIS

Each year ABD transfers a monthly reversion amount of a portion of the revenues from liquor sales, license fees, and other sources back to the State General Fund. This reversion is then appropriated by the legislature to other departments and agencies throughout the state. ABD provides an estimate of this total number to be used in budgeting and is required to fulfill this estimated amount. The estimate is derived using past and current sales and reflects the overall growth of ABD as it continues to serve lowans through the responsible regulation, sale, and distribution of spirits.

NOTES TO FINANCIAL STATEMENTS

PROFIT AND LOSS NOTES ON TOTALS

Refer to page 44

- Per lowa Code section 123.22, ABD utilizes a bailment inventory system. ABD charges the liquor suppliers a \$1.00 bailment fee per case sold for warehousing. The bailment fee is deducted from payments to vendors. Bailment fees and special handling fees are not actual revenues received; rather they are a reduction in the total bailment invoice paid to the suppliers.
- Major expenditures in the Ruan Fleet and Ruan Warehouse expense categories include wages and benefits of delivery drivers, fleet vehicles and equipment, pick rate per unit, warehouse labor, and warehouse equipment. Increases in these line items have a direct correlation to the increase in the liquor sales as well as inflationary costs rising across the beverage alcohol and transportation industries overall.
- ³ The significant increase in FY23 can be attributed to the warehouse racking project as well as the remaining fuel tank replacement project carried over from FY22. Both projects were completed in FY23.
- Education & Outreach and Administrative Actions were added as new reporting units for FY23. Revenues and expenditures were previously reported and allocated to other operating units. These new units were created to enhance financial reporting and better understand the needs of these areas.
- Information Technology expenses remained high due to the continued maintenance and implementation of major systems. During FY23, ABD continued the integration of the new Salesforce licensing system with IDR's GovConnectlowa system, made updates to the metrics dashboards, inventory forecasting, and case management system.
- ⁶ The split case increase is attributed to an adjustment of this fee for all single bottle picks. This fee was updated from \$0.50 to \$0.75 on July 1, 2022.
- ⁷ The increase in Other Revenues and Reimbursements is attributed to a grant from lowa State University, settlements, collections, reimbursements, recycling fees, and the return of funds for construction projects.

- Wine Tax and License Revenue saw a significant decrease year over year. This was a result of less outstanding deferred revenues being collected from the impact of the pandemic proclamation. Additionally, Senate File 2374 was implemented in mid-FY23 and made significant changes to the licensing fee structure. These updates impacted total revenue and the amounts due from certain license types which had an impact on total revenues collected.
- ⁹ During FY23, liquor and license refunds continued to be impacted by the replacement of the legacy licensing system and the implementation of the new Salesforce system. Since the activation of the new Salesforce licensing platform, ABD has seen a decreased need for issuing licensing refunds as users become more familiar with the system.
- ¹⁰ The collection of deferred license revenues post-pandemic led to an increase in the payments made by ABD to the local authorities during FY23. As deferred revenues were collected, the portions of these fees were paid back to the local authorities.

NET INCOME STATEMENT NOTES ON TOTALS

- ¹ See footnote 6 in the profit and loss section for the explanation of this increase.
- ² See footnote 8 in the profit and loss section for the explanation of this decrease
- ³ See footnote 7 in the profit and loss section for the explanation of this decrease.
- Intra-Department Transfers are transfers made within ABD funds to cover operational expenses. This revenue line is the transfer into the ABD State General Fund from the Liquor Control Trust Fund. Transfers within ABD remained consistent year over year. The reallocation of expenses in the areas of administrative actions, compliance, and education did not impact this transfer as the updates made were within the Liquor Control Trust Fund.
- ⁵ The purchase of liquor is the inventory cost associated with the sale of liquor to our class "E" licensees. ABD purchases liquor inventory from the suppliers on the bailment system.
- ⁶ See footnote 3 in the profit and loss section for the explanation of this increase.
- ⁷ The decrease in some administration areas is attributed to the reallocation of personnel expenses in the new Education & Outreach and Administrative Actions units. Other general expenses were allocated appropriately to these two new units and is the reason for the larger increase when compared to the other administration areas.
- Non-operating expenses are costs that are not associated with the distribution of distilled spirits. This category includes salaries and expenses of the ABD State General Fund administrative and compliance units. There is also a portion of building maintenance in these expenses as those costs are not directly related to distribution.
- ⁹ Remaining Authority Liq Trust Fund equates to the amount of resources remaining over dispositions for each respective fiscal year. Depending on the fiscal activity of any given year, resources less dispositions will either increase or decrease the remaining authority. FY22 financial activity increased the remaining authority for FY23. This resource allowed for a larger reversion and is reported as a decrease to expenses.
